**The quickest  
way to  
extract your  
sand!**

Continuous removal of used garnet into bags for easy removal and disposal.

Allows the removal of garnet without the need to shut down the Waterjet operations or add labor to remove the used garnet.

## BENEFITS

No down time or added labor.

Removes garnet at 35 gallons per minute.

Small footprint: 50" x 50" x 90"

Only requires air to operate.
